

## Why Support the Arts?

- Arts are often considered the repository of a society's collective memory. Art preserves how it felt to exist in a particular place at a particular time.
- Art allows people from different cultures to communicate with each other through images, sounds and stories.
- Art gives voice to everyone regardless of age, education, need, or culture.

- Art fosters the human need for self-expression and fulfillment and is also economically viable.
- Art employs many people and stimulates the economy.
- Art brings people together in positive ways.

- Art has a positive impact on education. Children who participate in the arts see improvement in math, language, and literacy.

## Membership Benefits
