MMAC Art Center
101 E BROADWAY
MOUNTAINAIR, NM 87036
ManzanoMountainArtCouncil.org

Sunday, October 30, 2022
Session A at 11:30a
Session B at 12:15p

Meet the Artist

Encaustic is made from ground pigments and beeswax. Each color has a different melting temperature, but many become liquid around 190° F(88° C). Encaustic has been used for thousands of years.

Participants welcome - FREE EVENT!
